ABSTRACT

The present communication includes a list of 411 species of lichens under 147 genera reported or described from India after the publication of *Indian Lichens: An Annotated Checklist* by Singh and Sinha (2010). According to latest issue of *Plant Discoveries* 2016 (Singh and Dash, 2017) 2511 species of lichens are known from India. However, a thorough collation including less popular and online journals where taxonomic novelties in the form of new records are not mentioned, revealed significant increase during the past seven years. By addition of 411 species to the list of Singh and Sinha (2010), now the total number of lichens for India raises up to 2714 species. However, due to nomenclature changes and synonymy, revisions, etc. this data may change. Few species which were not included in Singh and Sinha (2010) are also included in this list. Species simply transferred to other genera without affecting the number tally are not listed here. Like-wise obligate lichenicolous and non-lichenized fungi are not included in the present list.

The current list indicates that large number of taxa are reported from the family Graphidaceae (106 spp.) where genus *Graphis* alone counts 34 species. Large number of taxa are also reported from order Arthoniales (52 species) with *Opegrapha* representing 17 species. The species listed here follows the pattern of; species name (in bold), reference, and name of the state from where the species is reported. For the references cited in this paper readers may refer *Bibliography to the Indian lichens from the year 2010 onwards* by Joseph et al. (2018) published in the same issue of this journal.

LIST OF SPECIES

Acanthothecis archeri B.O. Sharma, Makhija & Khadilkar, (Sharma et al., 2010). Andaman & Nicobar Islands.

Acanthothecis celata B.O. Sharma, Makhija & Khadilkar, (Sharma et al., 2010). Karnataka.

Acanthothecis coccinea B.O. Sharma, Makhija & Khadilkar, (Sharma et al., 2010). Meghalaya.

Acanthothecis gracilis Staiger & Kalb, (Joshi and Upreti, 2016). Kerala and Tamil Nadu.

Acanthothecis leucoxantha (Müll Arg.) Staiger & Kalb, (Rout et al., 2010). Assam.

Acarospora angolensis H. Magn., (Gupta et al., 2014). Uttarakhand.

Acarospora badiofusca (Nyl.) Th. Fr., (Mishra and Upreti, 2015). Uttarakhand.

Acarospora carnegiei Zahlbr., (Gupta et al., 2014). Uttarakhand.

Acarospora hassei Herre, (Mishra and Upreti, 2015). Uttarakhand.

Acarospora molybdina (Ach.) Trevis., (Sinha and Gupta, 2017). Sikkim.

Acarospora peltastica Zahlbr., (Mishra and Upreti, 2015). Uttarakhand.

Acarospora saxicola Fink, (Rawat et al., 2014). Uttarakhand.

Acarospora scabra (Pers.) Th. Fr., (Gupta et al., 2014). Uttarakhand.

Acarospora tominiana H. Magn., (Goni and Sharma, 2015). Jammu and Kashmir.

Acarospora veronensis A. Massal., (Upreti et al., 2010). Uttarakhand.

Agonimia allobata (Stizenb.) P. James, (Gupta and Sinha, 2016). Uttar Pradesh.

Agonimia opuntiella (Buschardt & Poelt) Vízda, (Bajpai et al., 2015). Rajasthan.

Agonimia tristicula (Nyl.) Zahlbr., (Upreti et al., 2013). Arunachal Pradesh.

Alloertraria oakesiana (Tuck.) A. Thell., (Mishra and Upreti, 2015). Uttarakhand.

Alyxoria culmigena (Lib.) Ertz, (Joseph et al., 2016). Andaman and Nicobar Islands.

- Anisomeridium albisedum** (Nyl.) R.C. Harris, (Bajpai and Upreti, 2011). Maharashtra.
- Anisomeridium ambiguum** (Zahlbr.) R.C. Harris (Sethy et al., 2012). Andaman Islands.
- Anisomeridium angulosum** (Müll. Arg.) R.C. Harris, (Randive et al., 2017). Goa.
- Anisomeridium glaucescens** (Müll. Arg.) R. C. Harris, (Joshi and Upreti, 2016). Kerala.
- Anisomeridium polypori** (Ellis & Everh.) M.E. Barr, (Joshi et al., 2014). Uttarakhand.
- Anomomorpha elegans** B.O. Sharma, Makhija & Khadilkar, (Sharma et al., 2010). Karnataka.
- Anthracothecium subruanum** Makhija & Patw., (Karakoti et al., 2014). Uttarakhand.
- Architrypethelium nitens** (Fée) Aptroot., (Singh and Kumar, 2012). Odisha.
- Arthonia abnormis** (Ach.) Nyl., (Kholia et al., 2012). Uttarakhand.
